

LANDROLLER

Degelman

ENGINEERED TOUGH

Flattens The Ground - Pounds The Stones In

Available in sizes from 20 to 80 feet, a Degelman Land Roller provides excellent packing pressure and smooth operating which offers combine protection by flattening the fields and pounding the stones in. This makes it possible to harvest peas, lentils, and beans quickly and efficiently. The LR Series offers a 36" drum and the Hy-Roller series offers both 36" and 42".

Drum overlap has to be done right. Competitors will try to disguise overlap with small secondary drums causing unequal pressure, unnecessary complexity, and moving parts and bearings. Degelman drum overlap is simple and built into one heavy design.
