

HDSR

HEAVY DUTY STAGGERED RIPPER

Degelman

ENGINEERED TOUGH

Shatter Compaction When Your Operation Demands It

When your operation needs something more than conventional tillage, look no further. The HDSR offers aggressive, industry leading 24" maximum ripping depth. With the under frame clearance of 44", there's plenty of room for crop residue and rocks to pass through the machine. It also makes changing points easier and safer.

Built and designed in a truly unique Degelman way, the HDSR Series of Staggered Rippers will be a game changer for your farming operation.
